

# COMPUTER ENGINEERING

**Students learn the features, functions, and design of computer hardware and provide instruction in the maintenance and repair of computer components and devices**

## **Smart Scholar**

**This is a dual- enrollment partnership with SUNY Erie for the Information Technology Department/Degree Program. A cohort of 48 students selected by an admission process. Students in this program receive Extended Learning Time – 90 hours per year (including Academic Support, industry related Mentoring, and Project Based Learning) and dual- credit college courses starting in 10th grade (at no cost to students).**
